Selected Experience and Projects

Web Engineer, Spensa Technologies (2 years | June 2016 - March 2018)

- Owned development, release, and maintenance of major user interface features in the flagship web application (Spensa AP), shipping the single-page application across browsers from Internet Explorer 9
- Shipped new features in Django/Python, PostgreSQL, and AWS-based stack in agile development cycles
- Owned and maintained build process and developer experience of the front-end architecture of the company's core web product, built on an in-house fork of Backbone.js
- Led performance optimizations, custom framework rewrites, and integration of new web platform features into the front-end software stack

Partner, Dorm Room Fund - First Round Capital (November 2018 - Present)

- As an investment partner, source, evaluate, and present new deals to other Dorm Room Fund partners
- Meet with Bay Area founders for pitches and offer guidance to student startups

Director, Cal Hacks (September 2018 - Present)

- Worked across functional teams for events, developing the mentorship program at hackathons, and managing marketing with focus on social media for the Cal Hacks hackathon with over 2500 event attendees
- Taught workshops on various software development topics, from web development to version control/git
- Worked on the Cal Hacks Fellowship program, working with partners like Y Combinator, Iron Fire Ventures, Berkeley SkyDeck, and others to support student entrepreneurs at UC Berkeley

Director of Marketing, The Anvil Coworking Space (1 year | April 2017 - August 2018)

- Helped conceptualize, design, and execute marketing plans for community events and campaigns around entrepreneurship, design, and tech throughout the year
- Worked on the Boiler Startup Accelerator, in marketing, as well as developing workshops and providing weekly mentorship to participating student startups

Design Chair and Developer, TEDxPurdueU (2 years | 2016 - 2018)

- Built and maintained the event website as the sole developer and systems administrator
- Managed all graphic design and most photography / videography for two event seasons across six events and 2000 total attendees
- Worked with the marketing team to execute parts of the marketing plan and independently prepare assets

Apogee Citation Creator (Chrome Extension, 2015 - 2018)

- Grew the side project to more than 125,000 weekly active users organically, up to acquisition in March 2018
